Pass Us By: An Inquiry Into Those We Never Meet Conner Douglas Bouchard Roberts

Using the scenes and setting of Seattle as a backdrop 'Pass Us By' explores themes of loss, connection, identity and awareness, as well as the odd assortment of considerations we have today as humans in a world where digital personas often speak louder physical actions. Step out of your 'skull sized kingdoms' and spend a moment with the people that make up the rest of your world. Those people that you have no recollection of even being there.

Author C.D.B. Roberts takes us out into the world of the people we have never stopped to meet with short stories and lucid essays that call into question what it means to be present within our modern lifestyles. In this short but honest work any question is up for debate. And perhaps at the end of it we can all turn outwards to see the missed moments and folks that sing a passerby gospel more intricate than any symphony.
