Empathic and psychic children are seeing things: Sparkles, Orbs, Spirits, and Ghosts. What is a parent to do? Don't worry; Melissa Leath has it covered. She has been asked by parents about Sparkles (as the kids call them). And she has gone on a quest to find the answers. This book covers spirit energies, auras, subtle bodies, hyper-sensitive and empathic children and information on indigo and crystal children. There are excerpts from blog articles that started the search for the meaning of Sparkles, along with some of the comments that followed. Within this book, Melissa uncovers the concept of Sparkles, spirit lights, and other paranormal occurrences and visions seen by children. Are they apparitions or true experiences? Included are exercises to practice with your child, examples to help expand their ability in a healthy and empowering way, and ideas to implement in your families' daily routine. "Sparkles" is filled with real life experiences from parents and their children; their fears and victories, along with Leath's shared knowledge and explanations.
