North Korea's Cyber Operations: Strategy and Responses (CSIS Reports)

Jenny Jun, Scott LaFoy, Ethan Sohn

North Korea's Cyber Operations: Strategy and Responses (CSIS Reports) Jenny Jun, Scott LaFoy, Ethan Sohn

This report presents an open source analysis of North Korea's cyber operations capabilities and its strategic implications for the United States and South Korea. The purpose is to mitigate the current knowledge gap among various academic and policy communities on the topic by synthesizing authoritative and comprehensive open source reference material. The report is divided into three chapters, the first chapter examining North Korea's cyber strategy. The authors then provide an assessment of North Korea's cyber operations capabilities by examining the organizational structure, history, and functions of North Korea's cyber units, their supporting educational training and technology base, and past cyber attacks widely attributed to North Korea. This assessment is followed by a discussion on policy implications for U.S. and ROK policymakers and the larger security community.

Robert Lindsey:

Spent a free time for you to be fun activity to try and do! A lot of people spent their sparetime with their family, or their very own friends. Usually they carrying out activity like watching television, planning to beach, or picnic in the park. They actually doing ditto every week. Do you feel it? Do you wish to something different to fill your current free time/ holiday? May be reading a book is usually option to fill your free time/ holiday. The first thing you ask may be what kinds of book that you should read. If you want to attempt look for book, may be the e-book untitled North Korea's Cyber Operations: Strategy and Responses (CSIS Reports) can be very good book to read. May be it is usually best activity to you.

Ernestine Biggs:

As a university student exactly feel bored in order to reading. If their teacher requested them to go to the library or even make summary for some reserve, they are complained. Just small students that has reading's internal or real their hobby. They just do what the professor want, like asked to go to the library. They go to at this time there but nothing reading very seriously. Any students feel that reading is not important, boring as well as can't see colorful pics on there. Yeah, it is for being complicated. Book is very important to suit your needs. As we know that on this period, many ways to get whatever we wish. Likewise word says, ways to reach Chinese's country. Therefore , this North Korea's Cyber Operations: Strategy and Responses (CSIS Reports) can make you really feel more interested to read.
