Apple Pro Training Series: Advanced Editing Techniques in Final Cut Pro 5 Michael Wohl

In the only Apple-certified guide to advanced video editing techniques, award-winning filmmaker Michael Wohl delivers comprehensive training in the real-world skills that professionals use every day. Working through six hours of superb raw footage on two DVD-9 discs, you'll learn to cut dialogue, action, comedy, chases, fights, interviews, documentaries, music videos, and multi-camera projects, as well as complete an entire audio mix.

Unlike other software books, Wohl teaches you to use Final Cut Pro's advanced features while you explore the art of crafting a story on film. So, for example, rather than just learn how dynamic trimming works, you'll learn why it works and in what situations you'd want to use it. And as you perfect your split edits, you'll learn to match angles, cut for reactions, and use cutaways and inserts effectively in dialogue. You'll discover how editing choices make comedy funny, drama moving, or chases suspenseful. Along the way, Wohl shares valuable tips on creating polished transitions, refining rough edits, and fixing screen direction errors. The book also covers audio editing and finishing, managing clips and media, transcoding video, and working with film and 24p—all in the context of making you a better editor and a more effective storyteller.

- DVD-ROM includes lesson and media files for over 40 hours of training
- Focused lessons take you step-by-step through practical, real-world projects
- Accessible writing style puts an expert instructor at your side
- Ample illustrations and keyboard shortcuts help you master techniques fast
- Lesson goals and time estimates help you plan your time
- Chapter review questions summarize what you've learned

The Apple Pro Training Series is both a self-paced learning tool and the official curriculum of the Apple Pro Training and Certification Program.
