Tunnels and Trolls Ken St. Andre

The fundamental framework for adventuring in Tunnels & Trolls is the concept of an underground tunnel complex wherein dangerous traps and deadly monsters guard undreamed-of treasures, where magic and high sorcery meet sword and shield, in alliance or as violent opponents. Those who survive to regain the surface may be considered "winners" - until the next time they venture into the depths, risking their all for glory, gold and adventure. The rules to play Tunnels & Trolls are complete with the booklet in your hands. You need never purchase anything else, and you will have the entire game available to you. On the other hand, there are numerous back-up services - among them, solitaire dungeon adventures, miniatures, and a magazine dedicated primarily to T&T - but these are meant to augment the game. Here is all you'll need.
