Comprehensive in its scope and addressing a broad range of ethical issues, this new edition continues to serve the global nursing community. In harmony with the universally accepted ICN Code of Ethics for Nurses, this book presents complex ethical issues and systematically guides the reader to ethical decision-making. Offering an expanded view of ethics, it now also includes Islamic and Hindu perspectives. The book challenges nurses to take a moral action when faced with ethical issues in the course of their day-to-day work. It gives comprehensive coverage of ethics from diverse social, cultural, political and religious perspectives. It dissects ethical principles and issues with clarity and relevance. It presents numerous examples of real life situations that nurses face daily. It shows how to integrate ethics into the nursing curriculum. It demonstrates the practical application of the ICN Code of Ethics for Nurses. "Ethics in Nursing Practice" is an invaluable resource for nursing students, clinical nurses, nurse managers and academics worldwide.
