What is it about?

This guide shows you how to create a new website which attracts a large audience and ranks high on google search results. We keep steps short and sweet.

What can I expect?

You won't get useless theories and time wasting explanations which would take months and years to learn. Instead, you get instructions of what to do to get a professional site running. Learning by doing, there is no better way.

Who is this book for?

This guide has been written for beginners and advanced users who have some computer knowledge. Bear in mind this approach consists of the steps many professionals use, therefore it will include technical steps and knowhow. If in doubt, contact the author to get free support.

What makes this book different than others?

Most books you can find about creating websites are very theoretical. These books may be useful if you intend to study the topic for a year or more, but if you want to get started right away and use only the most effective methods, there needs to be a different approach.

We will:

- 1) show you how to get started immediately.
- 2) show you how to make sure that your website is ranked high.
- 3) guide you to the best (free) sources to increase your knowledge and skills to become advanced in no time.
- 4) show you how to save time by walking the shortest path of success.
- 5) show you how long each step takes.
