THIS IS NOT A NOVEL! That's right, this is NOT a fiction book. "The Secret" is a Password Organizer Book. The cover of "The Secret" is intentionally designed to make it appear to be a regular book. From the engaging front cover to the mysterious back cover description, it presents itself as an interesting novel. However, this is just a ruse – meant to protect your sensitive information. The creatively deceptive look of "The Secret" helps to camouflage and safeguard the information it contains. Someone casually glancing at it will be unaware that it's actually a Password Log Book that holds all your valuable password and account information. "The Secret" is a practical solution to help you keep track of all your passwords in one convenient spot and, in this way, it solves the problem of misplacing or forgetting them. The easy-to-use format provides you with quick access to your password information when you need it and is designed to be customized by you. Measuring 8 x 5", it contains room for 200 entries, with 2 entries per page. It is just the right size to be handy yet contains ample room to write down all of your accounts and internet sites, their corresponding passwords, the usernames to each, password hints, PINs, and security questions. There is also a space in each entry for additional notes. The top right corner of each page has a spot to alphabetize the entries to suit your own specific needs, since you may require more entries under one letter than another. Now you can keep your important password information artfully concealed yet organized in style with "The Secret", the unique and distinctive Password Journal. Because, as everyone knows, secrets can be harder to discover when they're hidden in plain view.
