## **Proceedings of the Quadruple Congress on John Duns Scotus, Part 1: John Duns Scotus, Philosopher**

Mary Beth Ingham, Oleg Bychkov

On November 8, 1308, the great Franciscan scholastic thinker, John Duns Scotus, died and was buried in the friars' convent in Cologne. Building upon the intellectual heritage of his Franciscan predecessors in Paris, Alexander of Hales and Bonaventure of Bagnoregio, Scotus extended this peculiarly Franciscan approach to the philosophical and theological traditions of western Christianity in new and bold directions with unique emphases and implications. These ramifications became the foundation for an important alternate current of philosophical thought known through history as Scotism. On the occasion of the 700th anniversary of the death of Scotus, international scholars from around the world gathered together to celebrate in a comprehensive manner the life, work and intellectual legacy of the Subtle Doctor. This gathering took on the form of a Quadruple Congress, comprising four conferences, treating four different themes, associated with the intellectual journey and legacy of Scotus, namely Oxford, Cologne-Bonn, Strasbourg and the Franciscan Institute at St. Bonaventure University, New York.

The first conference, on which this book is based, focused on Scotus' philosophical inheritance and his Opera Philosophica. This conference also celebrated the completion of the Opera Philosophica and the life and work of the eminent American Franciscan scholar, the late Allan B. Wolter, OFM.
