If you want to understand your father's, mother's, or spouse's war experience, if someone in your family has suffered combat trauma, then you need to read this book. It will bring understanding and open the door to healing your family.

Leila, who sought to heal multigenerational traumas, takes on a journey of healing that began when she discovered haunting photographs her father had taken when he helped to liberate a Nazi concentration camp at the end of World War II. She learned from meeting other veteran liberators that what he witnessed deeply traumatized him and his fellow liberators. And they brought their trauma home with them where it rippled through their families.

"Even though the subject is difficult, the book adds much to our understanding of trauma and is fast and easily digested, because Leila has confronted and unraveled the horror for us. She embraces her own calling-- unique, courageous, necessary-- as the witness, chronicler, researcher, and preserver of a huge yet neglected portion of our World War II veteran population that still has much to teach us about trauma."

-Dr. Ed Tick, author of *War and the Soul*
