## **Pollinators of Native Plants: Attract, Observe and Identify Pollinators and Beneficial Insects with Native Plants** Heather N. Holm

This is the first comprehensive book to illustrate the specific relationships between native pollinators and native plants. Organized by plant communities, the book profiles over 65 perennial native plants of the Midwest, Great Lakes region, Northeast and southern Canada and the pollinators, beneficial insects and flower visitors the plants attract. With its easy-to-use format, the book provides the reader with information on how to attract, plant for and identify pollinators with native plants. Beautifully designed and illustrated with over 1600 photos of plants and insects, the book includes information on pollination, types of pollinators and beneficial insects, pollinator habitat and conservation as well as pollinator landscape plans. This is an important book for gardeners, students, native plant enthusiasts, landscape restoration professionals, small fruit and vegetable growers and farmers who are interested in attracting, identifying, supporting or planting for pollinators.
