## **Auto Engine Performance & Driveability Shop Manual, A8 (G-W Training Series for ASE Certification)** Chris Johanson

The Auto Engine Performance and Driveability Shop Manual contains thorough coverage of the tasks listed in the A8 Engine Performance area of the NATEF Task List. Each job in this manual is a hands-on activity, and most jobs correspond to one or more of the NATEF tasks. The jobs have been carefully organized and developed to increase the chances of passing the related ASE tests by having the reader apply what has been learned in the classroom. This manual steps through all of the NATEF tasks in the A8 Engine Performance area, which include inspecting, testing, and diagnosing engine, fuel and air induction, ignition, engine cooling, and emissions systems; removing and replacing self-contained components; and removing, overhauling, and reinstalling major components.
