Cosmosophia: Cosmology, Mysticism, and the Birth of a New Myth Theodore Richards

"Richards writes skillfully and soulfully about the most pressing issues of our times, and the deeper crisis out of which they have emerged. Drawing from a vast trove of knowledge about the world's religious, mystical, and philosophical traditions, he extracts the most valuable gems, polishes them with the revolutionary insights of modern science, and forges a radiant, new cosmosophy - a universal wisdom that honors the wisdom of the universe. The beauty of this mythos is that it, like the cosmos, is not static but dynamic, inviting our active participation and imaginative engagement. "This book succeeds in instilling reverence for a living universe and hope for a dying planet. May Cosmosophia blossom and flourish in the hearts of all beings!" -Darrin Drda, author of The Four Global Truths
