Back in print after almost 20 years, this Pimpernel Garden Classic edition has been redesigned and includes new photography

First published in the UK by Sutton Publishing in 1996 (and by Timber Press in the US), this Pimpernel Classic edition has been redesigned and includes new photography. Gertrude Jekyll was probably the most influential garden designer of the early 20th century, and this book explores her life and work at the home she created for herself at Munstead Wood in Surrey, England. Taking as a basis her own photograph albums, scrapbooks, and notebooks, and the recollections of contemporaries from Edith Wharton and Vita Sackville-West to William Robinson and Henry Francis du Pont, it describes not only the building and development of the house and garden but also her skills both in the arts and as a businesswoman and her collaborations with architects—preeminently Edwin Lutyens, but also Oliver Hill and M.H. Baillie Scott. This revised edition includes many photographs that have never previously been published.
