# Relativity: Special, General, and Cosmological

*Wolfgang Rindler*

## **Relativity: Special, General, and Cosmological** Wolfgang Rindler

This text is a considerable amplification and modernization of the authors' earlier Essential Relativity. It brings relativity alive conceptually and emphasizes the foundations and the logical subtleties rather than the mathematics or the detailed experiments. It includes 300 exercises and promotes a visceral understanding and the confidence to tackle any fundamental relativistic problem. Following a critical overview of the whole field, special-relativistic kinematics is presented three dimensionally before the mathematical level gradually rises. Four vectors preceded mechanics, four tensors precede Maxwell theory, and three chapters on cosmology end the text. This book brings the challenge and excitement of modern relativity and cosmology at a rigorous mathematical level within the reach of advanced undergraduates, while containing enough new material to interest lecturers and researchers.

### From reader reviews:

#### **Clyde Harlan:**

Why don't make it to be your habit? Right now, try to prepare your time to do the important work, like looking for your favorite guide and reading a reserve. Beside you can solve your condition; you can add your knowledge by the publication entitled Relativity: Special, General, and Cosmological. Try to the actual book Relativity: Special, General, and Cosmological as your friend. It means that it can be your friend when you experience alone and beside that of course make you smarter than in the past. Yeah, it is very fortunate for you personally. The book makes you considerably more confident because you can know almost everything by the book. So, let's make new experience and also knowledge with this book.

#### **Ida Shroud:**

Do you certainly one of people who can't read enjoyable if the sentence chained in the straightway, hold on guys that aren't like that. This Relativity: Special, General, and Cosmological book is readable by simply you who hate those straight word style. You will find the data here are arranged for enjoyable reading experience without actually decreasing the knowledge that want to offer to you. The writer connected with Relativity: Special, General, and Cosmological content conveys the thought easily to understand by lots of people. The printed and e-book are not different in the information but it just different in the form of it. So, do you still think Relativity: Special, General, and Cosmological is not loveable to be your top listing reading book?

#### **Jeremy Hutchings:**

You can spend your free time to read this book this e-book. This Relativity: Special, General, and Cosmological is simple to develop you can read it in the park, in the beach, train in addition to soon. If you did not get much space to bring often the printed book, you can buy often the e-book. It is make you much easier to read it. You can save the particular book in your smart phone. So there are a lot of benefits that you will get when you buy this book.

#### **Bruce Davis:**

This Relativity: Special, General, and Cosmological is brand new way for you who has curiosity to look for some information since it relieves your hunger associated with. Getting deeper you into it getting knowledge more you know or perhaps you who still having little digest in reading this Relativity: Special, General, and Cosmological can be the light food for you because the information inside this specific book is easy to get by simply anyone. These books create itself in the form that is reachable by anyone, sure I mean in the e-book form. People who think that in e-book form make them feel drowsy even dizzy this guide is the answer. So you cannot find any in reading a e-book especially this one. You can find what you are looking for. It should be here for an individual. So, don't miss the idea! Just read this e-book style for your better life in addition to knowledge.
