Did You Know . . .

- A hippopotamus can consume over one hundred pounds of grass EVERY night?
- That hippos can sleep underwater?
- A hippo makes an excellent sleepover guest?!

For Your Family

Written by a family for your family, *Humongous Hippopotamus* by Michael Wills (with a helping hand from his two young daughters) gives a fantastic insight into the minds, lives and imaginations of these fascinating creatures: from feeding to sleeping to swimming. And then back to feeding again. Available exclusively as a downloadable e-book, *Humongous Hippopotamus* is aimed at children of all ages – and their adults!

A great balance of fact and fiction, this e-book is packed with humor (which will appeal as much to grown-ups as kids) and interspersed with true, educational snippets about hippos. It's also superbly illustrated with a selection of gorgeous, fun, colorful photos that children will love to look at. The text is simple enough for a preschooler to understand, easy enough for a second-grader to try to read alone, yet interesting enough to keep older children amused too.

When it comes to literary critics, children are the harshest of all, but *Humongous Hippopotamus* is one e-book that will keep them entertained from start to finish – just take a look at the Amazon reviews and reader feedback and see for yourself.

Whether you're a parent, teacher, First-Grader or a cool older kid, you NEED to download this book today. It's fun, funny, easy-to-read and (ssshhhh!) educational too. Not to mention the benefits of using interactive, modern technology with your little ones. *Humongous Hippopotamus* offers the perfect opportunity to explore the wilds of Africa from the comfort of Mom or Dad's knee: great for daytime, bedtime or anytime. And the children won't even notice how much they're learning!
