The Asgardian Prophecies: The Black Quasar Charley Swanda, Amber Daniels

Charles grew up with his mother in a small Oklahoma town, where he is known as a freak and a nobody. The fact that his dad is believed dead, and his best friend is the town drug dealer, doesn't help him much. But that all changes on the day of his fifteenth birthday, when the guy he has thought was just a family friend shows up demanding that Charles is told the truth about his life and his world; his mom isn't his mom, his dad was once a member of Odin's guard (the Odinites) and is now possibly a traitor, and Charles is not named Charles. But his name is Magnus, and he is the prophecy child. He is then given his father's ring (that has unknown powers) and after almost killing a school jock is whisked away to Asgard where he can learn to use his powers properly. Upon arriving in this new world he is introduced to the other Odinites, who are to be his fellow warriors, even the only female Odinite Helena whom he can't decide whether she likes him or wants to kill him. With his powers and the powers of the others he is trained to save the nine worlds; That is unless the newly awakened Loki and the evil Goddess Hel; with the use of secrets Magnus desperately wants the answers to, can sway him to destroy the worlds instead. We are a brother and sister writing team from a small Oklahoma town. We have both written different things all our lives, ranging from music and short stories, to poetry. We are both avid readers of multiple genres'. We have never had time together to pursue writing any further than our own notebooks, but now that we have more time together, we decided to combine our efforts and creativity into our first novel; hopefully with many more to come.
